Rocky Decides On Strategy Against JFK

By JACK BELL

WASHINGTON (AP) - Whe ov Nelson A. Rockefeller cranks p his campaign for the 1964 Re ublican presidential nominati about five months from now, intends to run against Preside: Kennedy rather than potenti GOP rivals.

This strategy decision, reported by one of the New York governor's closest associates, is based on what his advisers believe are the necessities of any effort to beat Kennedy, rather than over confidence about obtaining the nomination.

Rockefeller's associates kr the governor isn't going to get the party prize without fighting for They are well aware GOP cor servatives will make a massive effort to head him off.

But Rockefeller's associates ob viously think the nomination isn' going to be worth much unles the man who gets it has already laid the groundwork for the ger eral election campaign by establishing his position in opposition to the Democratic president on

Rockefeller's decision also offers the prospect of avoiding the kind of party splitting battle. Rockefeller is delaying any sig-

nal for pre-convention organiza tion work until a month after hi state legislature adjourns. Fo practical purposes he will not be free until May to give much time to any quest for the nomination Partly because of this, th

Rockefeller people have writt state GOP officials that they have authorized no groups to sponso the governor's candidacy.

As an example, they ran in

a situation in Wisconsin where three different groups of Republ cans were trying to get the nod to sponsor his name in that state's primary. George L. Himman, New York national committeeman, side

tracked this and similar contro-

versies with letters to party cials promising they would be notified before any move was made in their state to attempt to gather delegates for the 1964 con-Rockefeller's decision to delay

his drive for the nomination fits in with the plans of a couple of potential rivals, Sen. Barry Goldwater, R-Ariz., and Gov.-elect George Romney of Michigan.

Richard G. Kleindienst, Arizona state chairman, said he thinks Goldwater will take a hard look at developments in the next few months before he makes any final decision on whether to plunge into

the nomination race. Denying that Goldwater had any advance knowledge of a recent secret meeting in Chicago at which conservatives boomed the senator for the nomination, Klein dienst said he is sure Goldwater

has withheld any commitments. The Arizona chairman took sue with Goldwater's own position that he can't go out after the presidential nomination without endangering his chances of being re-elected to the Senate in 1964. Kleindienst said he thinks Goldwater could go into some of the early presidential primaries and,

if he found his support in them unsatisfactory, could run again for the Senate. John B. Martin, Michigan national committeeman, predicted in a separate interview there will be no move to push Romney into the presidential picture until after

the new governor has had a year or so to get squared around in a now unfamiliar office and to grapple with state problems. There has been some talk, too, of Gov.-elect William W. Scranton

of Pennsylvania as a possible contender for the GOP nomination in 1964. Asked Sunday on a television interview program (NBC - Meet the Press) if he would reject a draft, Scranton replied:

"No, but I think the possibility of a draft is so remote I don't give it much thought."

Farm Group's **Chieftain Hits** Tax Reductions

ATLANTA, Ga. (AP) - President Charles B. Shuman of the American Farm Bureau Federation called today for defeat of proposed reductions in federal in come taxes unless matched by

cuts in government spending. convention that lowering of these taxes without corresponding savings in expenditures would constitute fiscal irresponsibility.

The farm leaders's remarks raised the prospect that any proposal of the Kennedy administration to reduce taxes next year would face broad agricultural opposition unless the federal budget

At its recent convention at Fort Wayne, Ind., the National Grange opposed tax reductions accompaned by deficit spending.

The Kennedy administration has been studying proposals to lower income taxes to help spur

outlined in a convention talk that called upon Americans-farmers as well as nonfarmers-to make 1963 a year in which the wings

of big government are clipped. He said Congress should be pressed to tell the federal government to leave to states, counties and individuals the responsibility for solving education, medical aid

and municipal problems. The convention appeared to be heading for an almost unanimous approval of resolutions calling for less government in agriculture. Shuman told a news conference that a majority of the nation's farmers oppose Kennedy administration, supplies and prices.

Shuman, who farms, in Illinois said there was also need for a reduction of at least \$1 billion a year in foreign aid programs. He said such aid should emphasize technical assistance in developing economies of poorer countries rather than grants of money and

spoken in his criticism of government fiscal policies and the talk of possible tax reductions.

"Total national income of the people of the United States is at a very high level," he said. "We can afford to pay our way as we go. Further deficit spending by our government may generate disastrous inflation and jeopardize the confidence which other nations have in our fiscal responsibility.

As to federal farm programs, Shuman said that after 30 years of "fruitless and costly experiments, farmers generally accept the fact that there will never be a 'workable' government program to control production and fix

prices of agricultural products." The big job ahead, he said, is to provide programs designed to enable farmers long dependent on farm program aid to adjust to a free market system.

What do you bid now? A .- There is, of course, no

doubt in your mind that you can fulfill a contract of six diamonds but even a partner who has denied any strength may hold the king of spades and it is suggested that you make a bid to "fish" for that card. That can be accomplished by bidding three spades an obvious cue bid. If partner holds the king of that suit, it wil be his duty to show it by bidding four spades, in which case you can undertake to bid a grand

What do you bid now?

A -- Despite the fact that you have only a singleton heart, your hand will make a most attractive dummy for partner, who apparonthy has a heart suit that is selfning or close to it. Up to this point you have not given complete description of the strength of your hand, and the proper procedure is a bid of four clubs. Partner will realize that you are making no effort to play the hand in a minor suit, but that you are providing him with material information on which to base a final decision. A bid of three notrump cannot be accepted as correct by this department. Such a call would be made by opener on some mediocre hand nasmuch as the jump rebid by responder is forcing in our sys-

There is a security lid on chaper-by-chapter release of developments during a war crisis such as that of Cuba. But once the book is finished, the proud authors or participants either forget their find they have reason to believe they can flout the restrictions

So just because the Russians make it difficult for our side to get into the safe holding the secret Afghanistan invasion plans, we have now unfolded for all to see the details of our Cuban invasion plans.

Then, to boot, somebody on the federal payroll who sat in on the most secret high - level White House councils preceding the President's Cuban blockade decision, tells all about what happened. He tells even the names of the conferees who voted for an air strike and those who voted for a blockade as the first step. WE'RE SOVIETS'
